Survey Report: COVID-19 and Our Congregations

December 2020

PRODUCED BY THE CENTER FOR ANALYTICS, RESEARCH & DEVELOPMENT, AND DATA (CARDD)
COVID-19 and Our Congregations

This report shares preliminary findings of CARDD’s COVID-19 impact research, including:

Impact on Worship
- In-person Worship
- Worship Precautions
- Online Worship

Impact on Gathering and Giving
- Christian Education
- Ministry Gatherings
- Congregational Giving

Impact on Clergy
- Assistance Needed
- Support Given
- Pastoral Care
Introduction

- The COVID-19 pandemic has brought changing and challenging circumstances to our UCC congregations and clergy
- This report aims to share relevant and easily-accessible information with our clergy, congregations, Conferences, and all those who engage in ministry across our church settings
- These survey findings represent the first in an ongoing exploration of how our churches and pastors are adapting to the new realities of COVID-19 and eventually the long-term impact of these changes and innovations
Survey Methodology

- This survey was emailed to a random sample of senior pastors, solo pastors, co-pastors, designated term pastors, and interim pastors in the UCC

- A total of 345 clergy responded out of the 823 clergy who were sent the survey, resulting in a 41.9% response rate
  - Surveys were physically mailed to clergy who did not have email addresses listed in the Data Hub

- Respondents completed the survey from mid-August through mid-September 2020
Impact on Churches: Changes to In-Person Worship
Nearly all UCC churches who responded to the survey (95%) reported stopping worship at some point due to COVID-19.
Resuming Worship

Have you resumed worshipping in person?

- **YES**: 40.06%
- **NO**: 57.14%
- **YES, WE RESUMED MEETING IN PERSON AND THEN WE STOPPED AGAIN**: 2.80%

- At the time of this survey, 57% of churches had not yet resumed in-person worship.
- It is possible that as pandemic conditions change, some churches have since started to worship in person or those who had resumed worshipping in person may have stopped again.
What measures are you planning to implement when you resume in-person worship or are currently practicing for in-person worship? Choose all that apply.

Impact on Churches: Online Worship
Is your church holding online worship during the COVID-19 pandemic?

- Yes, 86%
- No, 14%

60.5% of churches worshipping online reported sharing live worship, while 39.5% reported sharing pre-recorded worship.
Online Worship: Before and since COVID-19

- Only 9% of churches reported worshipping online before the COVID-19 crisis, compared to 86% reporting holding worship online as a result of the pandemic.
- This represents an 855.6% increase in online worship.
For churches already worshipping online before the pandemic, how has their online worship changed since the COVID-19 crisis?

<table>
<thead>
<tr>
<th>Change Reported</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>We have higher attendance now for our online worship</td>
<td>89.66%</td>
</tr>
<tr>
<td>We added platforms for online worship</td>
<td>55.17%</td>
</tr>
<tr>
<td>We changed it to being pre-recorded instead of live</td>
<td>31.03%</td>
</tr>
<tr>
<td>We changed the platform for online worship</td>
<td>27.59%</td>
</tr>
<tr>
<td>We changed the frequency of worship services offered online</td>
<td>17.24%</td>
</tr>
<tr>
<td>We changed it to being live instead of pre-recorded</td>
<td>6.90%</td>
</tr>
<tr>
<td>Online worship attendance has stayed about the same</td>
<td>3.45%</td>
</tr>
<tr>
<td>We have lower attendance now for our online worship</td>
<td>0.00%</td>
</tr>
</tbody>
</table>

- More than half the churches who were already worshipping online before the pandemic reported having higher worship attendance and using additional platforms for online worship compared to before the pandemic.
77.5% of churches reported they were planning to continue using technology they adopted during the pandemic, which suggests that some of the new ways of gathering and interacting as a congregation will become a regular feature of church life beyond the pandemic.
Select the platform you have used for online worship (choose all that apply):

- **FACEBOOK/FACEBOOK LIVE**: 55.40%
- **YOUTUBE**: 49.82%
- **ZOOM**: 40.42%
- **OTHER**: 9.00%

- 39% of churches worshipping online reported using at least two of the platforms named above
- 8.7% reported using all three
Online Worship Attendance

Compared to your in-person worship attendance before the COVID-19 crisis, how would you describe your online worship attendance?

- **MUCH MORE THAN IN-PERSON ATTENDANCE**: 16.49%
- **SOMewhat more than in-person Attendance**: 35.48%
- **About the same as in-person Attendance**: 17.92%
- **Somewhat less than in-person Attendance**: 19.71%
- **Much less than in-person Attendance**: 10.39%

- Some of the differences between in-person and online worship attendance stem from the different ways people engage with online worship compared to in-person worship as well as the different ways online worship attendance is counted. For example, a service on YouTube can be accessed indefinitely, multiple people can watch a service on one screen, the way views are counted varies among platforms, etc.
- Due to these differences, online and in-person worship numbers should always be measured separately.
Who Attends Online Worship?

- 69.1% of congregations are measuring their online worship attendance
- CARDD will be offering guidelines as part of 2021 Yearbook reporting on how to measure online worship attendance across the most commonly used platforms
- While the Data Hub is not equipped to collect online worship attendance, this data will be collected in the Yearbook Supplemental Survey

</table>

- Churches not currently worshipping in-person or online are finding creative ways to stay engaged with the congregation.
- Fewer than 5% of churches not worshipping in-person or online reported that they are not currently providing any worship options.
Impact on Churches: Gathering and Giving
Changes in Ministry Gatherings: Christian Education

Christian Education – Youth (17 and younger)

- Moved options online in response to COVID-19: 45.03%
- Was offered in person but not currently online: 26.16%
- Was not offered in person: 28.81%
- We have resumed meeting in person: 0.33%
- We’re still meeting in person: 0.67%
- Always offered options online: 0.67%

Christian Education – Adult (18 and older)

- Moved options online in response to COVID-19: 47.14%
- Was offered in person but not currently online: 20.54%
- Was not offered in person: 29.63%
- We have resumed meeting in person: 6.06%
- We’re still meeting in person: 1.68%
- Always offered options online: 0.67%
Changes in Ministry Gatherings: Committee Meetings and Bible Studies
Changes in Ministry Gatherings: Outreach Groups

- The most frequently reported change to how various groups/ministries have gathered since the pandemic has been that they have moved online.
Has your congregation continued or expanded your outreach, community service, or social justice work?

- Yes 70%
- No 30%

Our churches are still active and engaged with their communities in the midst of the pandemic, with 70% of respondents reporting that their congregation has continued or expanded their outreach, community service, or social justice work.
How has giving in your church changed since COVID-19?

- Giving has increased significantly: 2.78%
- Giving has increased modestly: 16.98%
- Giving has stayed the same: 38.58%
- Giving has decreased modestly: 34.88%
- Giving has decreased significantly: 6.79%

- 41.7% of churches have reported a decline in giving
- 19.8% of churches have reported an increase in giving
- 38.6% of churches have reported that giving has stayed the same
What has been your congregation’s approach to electronic giving?

- **We are considering offering electronic giving options**: 8.05%
- **We do not have electronic giving options**: 29.10%
- **We have made electronic giving options available since March 1, 2020**: 14.24%
- **We offered electronic giving before March 1, 2020**: 48.61%

 Either before or since the pandemic, 62.9% of congregations offer electronic giving options.
Payroll Protection

Did your congregation apply for the Payroll Protection Plan from the SBA?

- Yes: 55%
- No: 43%
- Unsure: 2%
Impact on Clergy: Decision-Making
Information to Guide Decision-Making

What resources are you using to guide your decision-making process around gathering in-person for worship? (Choose all that apply)

<table>
<thead>
<tr>
<th>Resource</th>
<th>Percentage</th>

</tr>
<tr>
<td>Federal officials</td>
<td>12.84%</td>
</tr>
<tr>
<td>None</td>
<td>0.61%</td>
</tr>
</tbody>
</table>

- Clergy most commonly reported relying on their Conference, the CDC, and state and local health departments to guide their decision-making around in-person worship.
Impact on Clergy: Clergy Support
Where Clergy Need Assistance

The areas where clergy most need support or assistance are: (Select all that apply)

- Technology: 60.16%
- Pastoral Care Strategies: 44.62%
- Faith Formation: 40.64%
- Mental Health Resources (for Parishioners): 28.29%
- Worship: 27.89%
- Mental Health Resources (for Self): 13.55%
- Personal Care Issues: 9.56%
- Family Issues: 7.57%

专门为牧师提供支持

 Clergy identified technology as the area where they need the most support or assistance during the pandemic.
Most Helpful Support for Clergy

Whose support has been most helpful during COVID-19?
Choose all that apply.

- CONGREGATION MEMBERS: 82.26%
- CONFERENCE: 68.68%
- OTHER LOCAL CLERGY: 62.26%
- ASSOCIATION: 51.32%
- NATIONAL SETTING: 44.91%
- COMMUNITY: 29.81%
- OTHER: 27.55%
- SPIRITUAL DIRECTOR: 27.17%
- THERAPIST: 23.77%

Clergy reported receiving the most helpful support during the pandemic from their congregation members, followed by their Conference and other local clergy.
Pastoral Care for Clergy

By far, the most common source of pastoral care during the pandemic for clergy responding to this survey was clergy colleagues, whether UCC or in another faith community.
Concluding Thoughts

- Our churches have had to adapt to ongoing change while also continuing to be the church in new and vibrant ways.
- The rapid shift toward online worship and ministry gatherings has been one of the most pronounced impacts of COVID-19.
- Given the central role that technology has served across many churches during the pandemic, this is not surprisingly the area where clergy identify as needing the most assistance.
Forthcoming Reporting

Future reporting will include:

- Analyses of trends by
  - Conference/Geography
  - Church Size
  - Church setting (from rural to urban)
- Follow-up surveys to understand how churches continue to adapt to the pandemic over time

Thank you to our clergy who have taken the time to share their experiences, allowing us to produce this and future reports for the United Church of Christ.

We are grateful for all that you do!
